Would you want just TCEP or all 3 flame retardants? I will get TCEP going at the very least with a couple of slides.

Hi All,

I don't know if you are working on this request but given the briefing, I'm wondering if we can provide an update on some of our chemicals – just a status at this point.

Ideas –

- Formaldehyde (Rehan)
- Phthalates (Collin)
- TCEP (Karen)
- Others?

We'd likely have to develop a couple of slides for each.
Let me know what you think?

Collin – I thought about cumulative risk assessment but we have to brief Mark/ECRMD first. I tee'd this up for Jan. 24th – 10 am meeting.

- Yvette

Subject: Request - OPPT IO General topics - needed by 2 pm today

Importance: High

Hi All,

On Jan. 18th we have to brief Michal at the OPPT IO Tues. general. We are scheduled to give updates every 3rd Tuesday. The topics do not have to be substantial. At the general in Dec., we gave a dioxane presentation.

- What topics would you like to brief out on?
- Do we have materials to share for any of the suggested topics?
- Would you be willing to do the briefing or have a staff person give it?
- Should we pick one of the science team briefings? – These have not been shared with OPPT yet.

I have to give briefing slides to the OPPT IO by COB Thurs.

Please provide suggestions by 2 pm so I can vet them with Mark.

Thanks,
Yvette
